Enjoy your naturist experience with peace of mind!

Since 1956 – celebrating 70 years this year – we have maintained our commitments regarding naturist practices, safety, and environmental preservation:

- Encourage a healthy, family-friendly, and authentic naturist practice.

- Ensure respect for nudity, while being understanding towards adolescents.

- Guide newcomers in discovering naturism, always remaining attentive and supportive.
- Guarantee a peaceful stay for our guests, even on the beach, where discretion and propriety are honored for the benefit of families, excluding any form of voyeurism or exhibitionism.
- Preserve nature and the environment around our campsite by promoting water and energy savings, as well as selective waste sorting.
- Encourage fair tourism by supporting local and regional farmers and producers and favoring short supply chains.
- Educate visitors about naturism throughout the year through clubs, associations, national and international federations.

## Our ecological commitment

At the René Oltra campsite, we think about the environment!

### 1 - ENERGY SAVING

Use of energy-efficient light bulbs - Camping lighting controlled by timers. Electrical appliances switched off at the end of the day - Installation of insulation (pipe lagging) to improve the efficiency of the water network - Use of an electric buggy with a charging station at the entrance of the campsite - Free rosaries (pedal-powered vehicles) are available upon registration for getting around the campsite.

### 2 - WATER SAVING

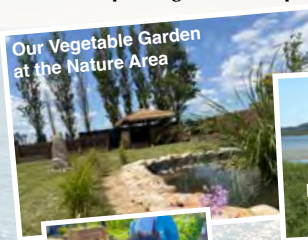

Installation of water pressure reducers - Presto taps (push-button taps) in sanitary facilities to reduce water consumption - Watering of plants in the evening to avoid water loss due to sunlight - Installation of timers on irrigation systems - Use of an active oxygen anti-scale treatment system to limit water leaks.

### 3 - WASTE MANAGEMENT AND ENVIRONMENTAL PROTECTION

No chemical weed killers, fertilizers or pesticides are used, in order to protect wildlife (hedgehogs, butterflies and insects) - Installation of solar lighting with downward-directed light flow, reducing the impact on nocturnal wildlife and complying with light pollution standards - Selective waste sorting: 8 collection points throughout the campsite, including battery collection. Use of environmentally friendly cleaning products with Ecolabel certification - Returnable bottles available in our shops. Promotion of short supply chains (local products).

### 4 - TOGETHER, LET'S TAKE ACTION TO PROTECT THE ENVIRONMENT

Please turn off lights, heating, jacuzzis and especially air conditioning when you are away. Remember to switch off the coffee maker and all electrical appliances after use. Sort your waste (packaging, glass, batteries). Pick up litter and cigarette butts during your outings. Limit water consumption when washing dishes or showering. Turn off taps and avoid letting water run unnecessarily. Do not dispose of toxic or chemical products in the sanitary facilities. Choose carpooling whenever possible.
